

SEVEN LOSE LIFE IN THE SMASHUP

THE VICTIMS OF THE WABASH WRECK.

Rains Undermine a Trestle—Fast Train Goes Through the Structure During a Cloudburst—Wonderful Escape of Many Passengers—Valuable Mail Matter Destroyed.

Kansas City, Mo., June 28.—Seven coffins were forwarded to St. Louis Sunday from Missouri City. They contained the remains of victims of Saturday night's wreck on the Wabash road. A correct list of the dead is as follows:

W. S. MILLS, postal clerk, St. Louis. O. M. SMITH, postal clerk, St. Louis. GUSTAVE A. SMITH, postal clerk, St. Louis.

CHARLE WINTER, postal clerk, St. Louis.

F. W. BRINK, postal clerk, St. Louis. EDWARD GRINDROB, baggage-master, St. Louis.

CHARLES P. GREASLEY, brakeman, St. Louis.

All indications are that death came to at least four of the five mail clerks almost instantly. Their car pitched end first through the break in the trestle. The remains of the four were carried from the wreck and were recovered some distance down the stream. There were signs of life in the body of the fifth mail clerk when rescuers dragged him from the wreck, but he died a few minutes later on the bank of the creek.

The conductor of the train, G. C. Copeland of St. Louis, who was reported among the dead, is still alive. He was removed to the railroad hospital at Moberly with a fractured skull and several broken ribs. He lingers between life and death, but the surgeons express a hope that he will recover.

Conductor Copeland was supposed to be dead when taken from the wreck, and his body, with a handkerchief down over the face, was ranged in a row with the seven corpses. A few minutes later some one observed a sign of life and he was quickly transferred to a stretcher and given every possible attention.

Of the nineteen others injured not one is in a critical condition. Among them all there is not one broken limb, though many of them were thrown three-quarters of the length of the coaches in which they were riding.

Sunday but a small stream was flowing beneath the trestle where the wreck occurred. In ordinary weather it is a dry creek bed. The storm of Saturday night, which was almost a cloudburst, had swollen the little stream to a torrent. The flood carried away a wagon bridge a short distance above the Wabash trestle. The wreck of this bridge was hurled down upon the railroad trestle and carried away a row of wooden supports in the center. The locomotive struck the trestle and passed over, but the tender went through with the wreck. The baggage car toppled off on its side and the mail car, which followed, pitched into the stream end first. Every life in this car was lost. The smoker, next behind, followed. The chair car, next, also plunged in upon the mass of wreckage, and first and all its passengers were thrown to the forward end in an indescribable heap. How they escaped with more serious injury is a mystery. The front end of the sleeper, next in the rear, jammed into the protruding end of the chair car, and was thus prevented from following the others into the chasm.

Mail Matter Destroyed.

Kansas City, Mo., June 28.—The postal authorities report that probably nearly all of the mail carried on the train was lost or destroyed. The Wabash train carries all of Kansas City's afternoon mail for the east, and it is always heavy and valuable.

One Robber Killed.

Springfield, Mo., June 28.—At Buffalo, forty miles north of here, last night, Frank Taylor was killed and his brother John badly wounded while attempting to rob the Wood mill. John escaped. The sheriff's men surrounded the premises while the robbers were at work, and on the latter's refusal to surrender, fired into the building.

Heavy Tie on the Track.

Watertown, N. Y., June 28.—An attempt to wreck a passenger train on the Rome, Watertown and Ogdensburg railroad was made in the outskirts of this city Saturday. A heavy pine tie was placed across the track, but the train, which was from Utica, was not derailed, though it struck the obstruction.

Luetgert Is Refused Bail.

Chicago, June 28.—Adolph Luetgert, charged with the murder of his wife, must remain in jail. Judge Gibbons Saturday ruled that the defendant be held without bail to await his trial. Immediately after the decision, Luetgert was formally arraigned on the charge of murder and entered a plea of not guilty.

Death of a Famous Painter.

Boston, June 28.—Wilbur H. Lansit, the famous animal painter, died of consumption at his home in Dorchester, Saturday night. He was forty-two years old.

BLOODSHED IN CRETE.

Battle Provoked by Turks—Many Christians Killed.

Canea, Crete, June 28.—An armed force of 1,200 Mussulmans made a sortie from Canea last night, crossed the military cordon and surprised the insurgents at Kanlikastelli, three hours distant. A desperate combat ensued, in which thirteen Mussulmans were killed and twelve wounded. The Christian inhabitants of the district are preparing to make reprisals by land and sea.

Late advices show that many Christians were killed, as well as many Turks, in engagements that have preceded the principal fighting at Kanlikastelli. The whole district is greatly excited.

The trouble arose from the encroachments of Mussulmans refugees, who attempted to pasture their cattle within the limits of the neutral zone.

Bryan to Take the Stump.

Lincoln, Neb., June 28.—To-day the Democratic state central committee of Nebraska meets at Lincoln to arrange for the state convention. At the same time it will issue a card to the central committees of the Populists and silver Republicans, requesting that these parties call their conventions for the same time and place as the Democratic convention. This will be the first move toward opening the fall campaign. A supreme court judge and two state regents are to be elected. Bryan will take the stump in the state. Silver is to be the issue.

Mr. Pettigrew Struck Dumb.

Washington, June 28.—An abrupt and startling halt in the tariff debate occurred in the senate at 2:30 o'clock Saturday, when, in the midst of a passionate speech, Senator Pettigrew (silver Rep.) of South Dakota was stricken with paralysis of the vocal cords, which brought his vehement speech to a close with a sentence half-uttered. Senator Pettigrew was removed to his home, accompanied by Dr. Baine, Senator Mantle and Sergeant-at-Arms Bright. He rallied rapidly that night, recovered his voice and was pronounced in no danger.

PLAN OF THE WORK AT THE CAPITAL

PROSPECTIVE LEGISLATION AT WASHINGTON.

Progress of Tariff Bill—The Debate on the Measure is Rapidly Nearing an End—Republican Managers Hopeful That This May Be the Last Week

Washington, June 28.—The Republican tariff managers are still hopeful that the present may prove to be the last week of the tariff debate in the senate. All the schedules have been gone over once, leaving nothing to be done but to consider the paragraphs in the various schedules which have been passed when reached in their regular order because of differences of opinion among the Republicans themselves.

Many of these differences have been adjusted in the Republican ranks, but the Democrats will naturally take advantage of their knowledge of the feeling existing among their opponents to debate some of the questions at length. It is understood now that coal, leather, hides and lead ore will each be vigorously discussed, as will also the questions, though more briefly, of reciprocity, the treatment of trusts and the disposition of the Hawaiian reciprocity treaty.

In view of the determination of the Democrats to exploit all these questions and others as well it would seem impossible to conclude the senate's work on the bill before the end of the week, and it is more than probable that the final work will be reserved for the following week.

The house will continue this week its policy of adjournment from Monday until Thursday. After that its course will depend upon the action of the senate. If by any chance a vote should be had on the tariff bill Wednesday or Thursday the house probably will remain in session to receive the bill, disagree to the senate amendments and appoint conferees. Otherwise an adjournment will be had from Thursday to Monday.

EXCURSIONISTS IN DANGER.

Five Persons Hurt by Collision at Millersburg, Ohio.

Akron, Ohio, June 28.—The first section of the Cleveland, Akron and Columbus train, having on board the employees of the Goodrich rubber company, the Diamond rubber company and the Akron India rubber company, ran into a Baltimore and Ohio train at Millersburg Saturday. Five passengers were injured.

The engineers and firemen of both engines jumped and saved themselves. The Baltimore and Ohio engine was thrown from the track, as well as the baggage car on the colliding train. Both engines and baggage cars were badly damaged. There were five hundred passengers on board the excursion train and great excitement prevailed.

Ignores Boondoggling Charges.

Chicago, June 28.—Some sensational charges against Thomas Cusack, acting president of the board of education were contained in two affidavits published in the Times-Herald yesterday morning. The charges made may be specified by the term "petty boondoggling," which came into use in the days when Chicago and Cook county were in the throes of a first-class boondoggling sensation. Mr. Cusack did not assume any attitude of denial, but rather one of ignoring the charges.

Strange Disease Affects Cattle.

Wausau, Neb., June 28.—Serious losses of cattle among a number of herds in this county are reported, much to the alarm of the cattlemen of this state. A disease termed hydrophobia is ascribed. As it was considered contagious, Gov. Holcomb was asked to send a veterinary to investigate, which he refused to do, referring petitioners to county officials. Already nearly fifty head are reported as having died from the disease.

To Succeed De Lome.

Havana, via Key West, June 28.—Senor Santos Guzman, the well known leader of the uncompromising Spanish party in Havana, is reported to have informed his adherents that Senor Castelar is about to be appointed by the Spanish government to the position of Spanish ambassador in Washington, now held by Senor Dupuy de Lome. He added that Spain had good reason to expect favorable results from Castelar's popularity in the United States.

Key West Guards Its Dynamite.

Key West, Fla., June 28.—There have been no further attempts to lynch the colored prisoner here, and the mob of blacks has dispersed. A squad of United States soldiers was sent from the garrison to guard the Fort Taylor reservation, at the request of the contractors, to-day, as there is a quantity of dynamite for blasting purposes and other ammunition stored there.

New Place for Archbishop Keene.

New York, June 28.—Archbishop Keene, former rector of the Catholic university at Washington, who was summarily removed by his holiness Leo XIII, is about to return to the United States. It is said that he is to be appointed archbishop of New Orleans, to succeed the venerable Archbishop Janssens, who died suddenly a month ago.

JAPAN'S BOLD PLAN WAS NOT EXECUTED

HAD FIGURED TO LAND SAILORS AT HONOLULU.

Admiral Beardsley Alert—Prompt Action By the American Commander Prevents the Carrying Out of the Scheme—Japan's Protest Against Annexation Project Not Withdrawn.

San Francisco, Cal., June 28.—The steamer Gaelic brought the following advices from Honolulu, H. I., June 20: Since the Philadelphia has been in port weekly drills have been held. On the 14th the men from the Marion and the flagship were landed. While on march to the drill grounds an orderly brought an order, and the battalion returned on board. This action was taken, it was understood, on account of a rumor to the effect that the Naniwai would land a force of men to take charge of the Hawaiian customs house. The Japanese failed to act, and it is believed that Admiral Beardsley's prompt action caused the captain to change his mind. The English-speaking people here believe that there was good foundation for the rumor, in spite of the denial made at the Japanese legation.

Japanese Minister Shimada denies that Japan has withdrawn its request from the Hawaiian government for an explanation of the reasons for ejecting the Japanese immigrants.

Attitude of the Japanese.

Washington, June 28.—The Japanese position on the annexation of Hawaii by the United States has been made known from a very high source. The Japanese base their opposition to annexation almost entirely upon the ground that it is an interference with the treaty rights of Japan, and complain especially that the treaty was negotiated in the face of the most friendly protestations from Japan, and at a time when the Japanese authorities had been led to believe that no such treaty would be undertaken. The Japanese insist, as on all former occasions, that the Japanese government has not now and never has had any designs against Hawaii. This they consider a most important point, because of the talk about colonization, which they say has apparently had so much weight in the discussion of the question.

Irishmen in Phoenix Park.

Dublin, June 28.—A meeting convened to bring further pressure to bear upon the British government to grant amnesty to the Irish political prisoners now in Maryborough jail, was held in Phoenix park Sunday. William Field, Parnellite member for the St. Patrick's division of Dublin, in the course of a fiery speech, said: "It is useless to look further to the British government. We will call upon the voice, and perhaps the arms of our countrymen in America."

New York Tailors' Fight Unsettled.

New York, June 28.—A large number of contractors who had entered into settlements with the Brotherhood of Tailors last week have, according to members prominent in the Clothing Contractors' association, ignored the new agreement, closed their shops and turned their employees adrift. The number of contractors who are said to have thus acted is set down at 400, employing between 1,000 and 1,500 operatives.

Norsemen Hold a Festival.

Menominee, Mich., June 28.—Midsummer was celebrated Sunday by the sons of the north. All the Scandinavian societies on the river took part in the parade, the principal features of which were several floats representing Scandinavian national costumes and emblems of the northland. The exercises at Riverside park were attended by over 10,000 people.

Fire On An Ocean Steamer.

New York, June 28.—There was an exciting battle with fire on the Anchor liner City of Rome, which came into port Sunday evening. The fire occurred on board when the vessel was nearing the end of her journey from Glasgow, and for five toilsome hours the crew fought it manfully, until victory was theirs. Little damage was done.

Conference of Swedish Baptists.

Rockford, Ill., June 28.—The closing sessions of the state conference of the Swedish Baptists were held Sunday. Sermons were delivered by the Rev. P. G. Hjelm of Chicago, the Rev. G. A. Hogstrom and Prof. C. G. Lagergren of Morgan Park. The selection of the place of meeting next year was left to the executive board.

End of the Queen's Jubilee.

Edinburgh, June 28.—The jubilee ended at Spitzhead Saturday with the naval review. The total number of armed vessels in the parade was 166, manned by 45,000 men, and covered in lines of five miles each. The thirteen foreign warships formed the 13th line. The aggregate British tonnage was about 600,000. The day ended with a tremendous royal salute fired from the thirteen-inch rifles.

SECRETARY GAGE'S CHANCE. FIND FARMER DEAD IN HIS OWN YARD

Preparing a Currency Reform and Banking Measure.

Washington, June 28.—Secretary Gage is charged with one of the most important duties that ever fell to the lot of a secretary of the treasury. The president is said to have abandoned the idea of a currency commission and has committed to Secretary Gage the task of preparing an administration currency and banking reform measure. This work the secretary will perform during the summer. If Mr. Gage is successful in his task, if he frames a bill which succeeds in running the congressional gauntlet and pushes its way to the statute books, he will deserve a monument.

Science in Bank Robbing.

Cleveland, O., June 28.—The bank of Roger & Son at Chagrin Falls was entered Saturday night and if the burglars had been given five minutes more time they would have opened the safe and got \$10,000 in cash. The electric railroad from Chagrin Falls to Cleveland passes along a street 100 feet from the bank building. The robbers climbed a pole and tapped the feed wire. Two wires were then strung up an alley to the bank building and taken through a transom to the big safe. Carbons were fastened to each wire and brought to bear on the knob of the combination of the safe. The lock was being melted when the last car for the night on the electric road reached the barn and the power was shut off.

Baptist Mission Funds.

Springfield, Mass., June 28.—The first definite statement of the amount raised by the Baptist churches of the country toward the debts of the two Baptist missionary societies, the American Baptist Missionary Union and the American Baptist Home Missionary Society was made by Dr. Hamilton C. Mable of New York, at the First Baptist Church Sunday. Dr. Mable, who is foreign secretary of the missionary union, said that of the \$236,000 asked of the churches, \$233,400 had been raised leaving but \$2,600 to be secured. Dr. Mable is confident that the collections of next Sunday will bring the amount up to the \$259,000 mark. Despite the hard times, collections have steadily increased since 1893.

Big Wheat Crop in Tennessee.

Knoxville, Tenn., June 28.—The most remarkable wheat crop ever known is now being harvested throughout east Tennessee. The season has been a perfect one and the farmer had planted an unusually large crop. The output will be enormous. Already the sale of new wheat has begun and 6,000 bu of the first and earliest crop were delivered here today at 90c. This is not the price to be paid for all wheat, as the opening quotations are 68c to 70c. Shipments to the east will begin next week. The price paid last year at the opening was 60c to 65c.

Murder Mystery in New York.

New York, June 28.—The lower part of the trunk of a man was found by two boys in the woods at One Hundred and Seventy-sixth street and Undercliff avenue, this city, Sunday. It was terribly mutilated and shows plainly that a murder has been committed. It was wrapped in oilcloth and manilla paper, exactly as was the upper part of a trunk found in the East river off Eleventh street Saturday. The two pieces were found more than eight miles apart, one in the water and the other on land.

Weyler Calls for More Troops.

Jacksonville, Fla., June 28.—Weyler, while at Cienfuegos, made request for 20,000 more colonial volunteers, with the intention of starting an active campaign. He has also demanded from Spain 40,000 additional troops, to reach Cuba by Sept. 1. The rainy season will be drawing to a close at this time, and this goes to prove the assertion just made that he will make the effort of his life to conquer the insurgents. The announcement that Gomez would begin active operations has been verified.

Sherman Is Against Turks.

New York, June 28.—John Sherman, secretary of state, came over from Washington Sunday. Secretary Sherman spoke on topics of national and international interest. He declared his belief that the United States will have no controversy with Japan over the annexation of Hawaii, and that the trust question is the most important subject for settlement in this country. He declared that he was firmly opposed to combinations of capital which interfere with competition.

Weekly Bank Statement.

New York, June 28.—This week's statement shows: Reserve, increased, \$845,200; loans, increased, \$3,130,800; specie, increased, \$350,000; legal tenders, increased, \$1,639,800; deposits, increased, \$4,566,400, and circulation, decreased, \$121,800. The total loans, \$21,681,600; specie, \$90,400,200; legal tenders, \$108,112,600; net deposits, \$597,094,600; circulation, \$13,870,900. Banks hold in excess, \$49,233,150.

Twenty-Six Miners Are Killed.

Valparaiso, June 28.—Twenty-six miners have been killed by a fall of rock in the Labor mines in the province of Atacama.

MONTICELLO MAN HANGS HIMSELF TODAY.

Henry Elmer was Despondent Because of Family Trouble, and Took His Own Life—Fatal Accident at a Hurley Mill—Some Other State Specials.

Monticello, Wis., June 28.—[Special]—Henry Elmer, a farmer, committed suicide by hanging himself to a tree in his own yard. Domestic trouble the cause of the act. Life was extinct when Elmer was found this morning. Fatal Accident At Hurley.

Hurley, Wis., June 28.—[Special]—Dunn's Burns was instantly killed at the Montreal mine today. He was repairing a fly wheel when the engine started and he was ground to pieces. A Big Strike Likely.

Milwaukee, Wis., June 28.—At a meeting Sunday the members of the Amalgamated Association of Iron and Steel Workers employed at the Bay View mills of the Illinois Steel company decided to quit work Thursday unless the company will agree to accept the scale to be decided at Youngstown Wednesday. As the company has declared in a formal communication to the men that it will not accept the Youngstown scale, a strike which will affect 1,400 men is likely.

The men refuse to give the figures on the wage scale submitted by the company, but say that it is such a reduction that they could not think of working under it.

Great Sunday at Oshkosh.

Oshkosh, Wis., June 28.—This city had a population Sunday of 45,000 or 50,000. At least 15,000 visitors were here, and the number is placed at 20,000 many. The Saengerfest was the attraction. The parade at 1 o'clock was a fine spectacle. Nearly all the societies had some distinctive garb or design which lent interest to the event. A real and instrumental concert of an unusual character was held in Exposition hall in the afternoon and the day's doings concluded with a summer festival at the fair grounds. The Saengerfest will be held at Stevens Point.

Picked Up on Green Bay.

Menominee, Mich., June 28.—Waterlogged and with her crew and captain in the rigging, the schooner Elizabeth was towed in Sunday from Green Bay. She was discovered by the tug North Muskegon. The cargo consisted of cordwood from Two Rivers, which alone kept the boat from sinking.

Lives and Property Lost.

Colona, June 28.—The town of Colona, in Galicia, has been flooded by the bursting of the river Pruth. Many houses have been destroyed, and the bridge between Colomea and Turka has been swept away. The collapse took place while a train was crossing. Five railway carriages fell in a great heap together, and there is no definite report as to the number of passengers. The distress at Colomea is terrible. Hundreds are homeless, their houses having been carried away with the rush of the waters.

Plasterers Go on a Strike.

New York, June 28.—The lockout of 3,000 plasterers went into effect to-day and many sympathetic strikes, involving a large number of men of other building trades, may result. The firms in the Employing Plasterers' association appear to have decided to fight against the demands of the men to the bitter end.

Bartley's Sentence Suspended.

Lincoln, Neb., June 28.—The sentence of ex-State Treasurer Bartley to twenty years' imprisonment in the state penitentiary and that he pay a fine of over \$300,000 has been suspended by the supreme court and Bartley's application for admission to bail granted. The amount of bail is fixed at \$125,000.

Rich Men Buy Cuban Bonds.

New York, June 28.—John Jacob Astor has purchased one of the \$1,000 6-per cent gold bonds of the republic of Cuba, which were issued last April. Dr. W. Seward Webb has purchased one of the \$400 6-per cent bond.

Brooklyn Sails Westward.

Portsmouth, June 28.—The United States warship Brooklyn sailed westward Sunday afternoon, after exchanging the usual salutes with the other foreign men-of-war, which are expected to remain here several days.

Italian Army Increased.

Rome, June 28.—After three days' debate the senate has adopted, in secret ballot, by a vote of 68 to 72, General Pelloux's army reorganization bill, increasing the peace effective footing of the Italian land forces.

Death of Gen. Gomez Denied.

Philadelphia, Pa., June 28.—The local junta has received word from Cuba denying the death of Gen. Gomez. They say he was severely wounded, but not dangerously.

Senator Culom Better.

Washington, June 28.—Senator Culom is much improved in health, and took a drive Sunday. He hopes to be able to go to the senate tomorrow, as he is anxious to be in his place in the closing hours of the tariff debate.

## NEWS OF THE CHURCHES.

**A** FEAST of reason was offered in Janesville churches yesterday, and large congregations heard the Word of God disseminated. No service was held at the Baptist church, and in the absence of Rev. E. H. Pence, Rev. Ambrose H. Smith preached at the Presbyterian church. With these two exceptions, services were conducted in the Janesville sanctuaries as usual.

### THE COURT STREET M. E.

The audience that greeted Dr. Olin A. Curtis at Court Street M. E. church yesterday morning filled the house and was thoroughly appreciative. The sermon was along the line of the one delivered last Sunday morning and had to do with one of the fundamental doctrines of the Bible, namely the deity of the Lord Jesus Christ.

The speaker said that it had been his privilege to speak to many audiences during the last few years and he had noticed the tendency to drift away from the great truths of the Bible and to put in their place modern thought. He believed that the old truths were basic and it should always be his aim in teaching, writing or preaching to hold closely to bible doctrine.

His text was from John I. the whole

part of the things that we hear are true. The larger part of the things that we hear expressed, that we read in books, that we hear from speakers may be called self-evident truths and they may be truths which no man of himself would have the capacity to discover. What man of the human race has ever had or ever will have, we may fear, the power to give utterance to such truths as Shakespeare has given utterance to? And yet don't they come to us? Don't we recognize them? Don't we feel them? And so it is with these great truths of revelation that our Lord Jesus Christ spoke so humbly and so simply.

Sincerity a Fact.

There is another trait which enters into this quality of authority, and that is sincerity. You listen to a speaker who impresses you with a sense that he is in earnest, that he himself holds his convictions in the deepest depths of his heart, that he believes and is willing to go to the stake for that which he utters, and you have got to get away from that man's presence or you are bound to fall more or less, under his influence. There was something in Christ's countenance, in his tone, in his manner, in his air, that gave authority to the words he spoke.

Then, again, Jesus spoke as never man spoke in respect to the manner of speech. Christ introduced a new mode

have got to learn that denominational distinctions do not count, but rather christian character, shown in holy living. In the church, the kingdom of heaven on earth, the wedding garment (goodness) is necessary, for the purpose of Christ is, not to cast into outer darkness, but to induce us to put on the wedding garment.

The church is the only instructor that stands for goodness; in proportion as she promises it, she succeeds, and she wishes and is bound to receive as members, all who declare for goodness.

"The religion of Jesus is the only religion founded on a perfectly sinless personality," and the kingdom He established is the only one that makes moral goodness the condition of membership, and is capable of leading men from sin. The mighty power of the church is so permeating society that the distinction between goodness and badness is greatly deepened.

The invitation to the banquet of life is boundless. There is no limit to the hospitality of our King. To cling to what is bad is to thwart the purpose of the King and make ourselves unfit for a place at the feast.

### THE CONGREGATIONAL.

At the Congregational church yesterday morning, the pastor spoke on the text, "Seek and ye shall find." These words seem to contain a message to every man—a message ringing with promise. Let us try to enter into their meaning.

Some types of life are always fasci-

### S. C. CARR IN SPAIN.

S. C. Carr received a couple of photographs this week that are interesting reminders of the varied experiences that he has had in the last year.

It was a little less than a year ago that the well known Milton man was preparing for his trip through Europe. He made a trip with his son, and in eleven days was transported from the land of gang plows and unkempt mules.

Mr. Carr tried his hand at plowing with one of these old fashioned contrivances, and in his journal makes this brief note:

"From Granada we drive further out in the country stopping at one farm to take a picture of a pair of mules yoked to a bible-tmes plow."

One of the photographs is a very good one of the tourist at work. The other picture showed the cars ascending Mt. Vesuvius. The car horses stand in loose ashes and piles of lava can be seen in the background just as thrown from the crater.

Florence S. Carr who took the photographs is a son of S. C. Carr and was born in Milton Junction. He was educated in Milton college and has been somewhat of a traveler having been in every state in the union and having crossed the Atlantic eight times. His home is at Springfield, Mass.

LaPrairie Sunday School.

The Sunday School campaign of the Rock County Association is being pushed vigorously by President J. T.

chapter being a strong endorsement of the divinity of Christ. The unitarian faith, said Dr. Curtis, recognizes Christ as a good man, perfect in moral character, and seeks to establish by scripture this belief, but the interpretation discloses only fragments of the hidden truth. Christ's own words shatter the unitarian theory—He is either infinitely more than they say, or much less. The humanity of Christ appears to be a stumbling block to them. This was true of the Jews when they crucified Him. They said He was an impostor because He claimed to be both God and man.

The fact that He found it necessary to say frequently: "I am a man," was held by Dr. Curtis to indicate clearly that he was more than a man. St. Paul or any other man who has ever lived would be considered foolish had he thought it necessary to make a claim to manhood.

In the teachings of Jesus he frequently spoke of His divinity and endeavored to impress upon His disciples the great truth that He and the Father were one. Not one in personality, but one in nature. After His death the disciples repeated the same words, and for this they were beheaded, crucified and burned at a stake. Had they proclaimed that He was one of many gods and not the only God, they would have been unmolested, but the great fact of His divinity was thoroughly established in their minds, and they were loyal to their convictions.

### PRESBYTERIAN CHURCH.

Dr. Ambrose C. Smith occupied the pulpit at the Presbyterian church yesterday morning. He chose for his text John 7:46, "The Officers Answered Never Man Spoke Like This Man."

This was the testimony of the officers sent by the Jewish Council at the time of the Feast of the Tabernacles to arrest Jesus Christ. They had been sent into His presence not to listen to His preaching, but to hush him up if possible, and to bring Him before the Jewish court. Their minds were naturally biased and prejudiced against Him, but they were won to admiration; a sort of spell seemed to be laid upon them. They were unable to execute their charge, and so returned without the prisoner, and with this reply. They stated the truth up to that time. And it is true today, by general concession that never man spoke like this man.

Knowledge and Authority. In the first place, never speak like Christ with such authority. The first is knowledge of the subject upon which a man speaks. Knowledge gives a man authority, and evidently Jesus possessed this element. He spoke with authority—a complete and adequate knowledge of the subject. How can men determine that? Why, it is very easy to determine that the larger

of public teaching the mode of teaching by parables. And it had a most wonderful effect.

The parable mode of teaching accomplishes this result: It has the power to make the profoundest truths so simple that they are comprehensible to the mind of the ordinarily intelligent hearer, and yet at the same time the parable puts the truth in a form so profound that the greatest philosopher and the wisest man are unable to comprehend all the depths of the truth therein revealed.

Was God That Spoke.

No man ever spoke like this man. Jesus never could have so spoken if he had been a man. It was God that spoke in the form of man. And that is why he speaks with such authority, that is why his words have a power over nature, over disease, over demons and over death. And so we worship him, and yield him our hearts and souls not because he was a good man, but because he is our Lord and our God, our Savior Jesus Christ.

### AT CHRIST CHURCH.

"And when the King came in to see the guests, he saw one who had not on a wedding garment," as the text from which Rev. Mr. Barrington preached yesterday morning at Christ church. The text is taken from the parable in which the kingdom of heaven is likened to a certain king, who gave a great banquet, and when he came to the feast to welcome his guests, and saw a man who had not on the wedding garment, he had his servant cast him into outer darkness. The question as to what the missing garment was has, and continues to puzzle students. It is evident, however, that the unwelcome guest lacked some form of goodness. "He was cast out because he was not clothed with righteousness." We can learn two things from the parable. "First, the religion of Christ, as is no other, is based upon the distinction between goodness and badness," and secondly "that the Lord sets forth His kingdom on earth as the place wherein this distinction between goodness and badness is to be wrought."

Many say their religion is "to do good," but they seldom get beyond belief, for they cannot develop such a character unaided.

And so the Lord has set forth His kingdom as the place where this standard can prevail, and having provided his sacraments and ordinances as a means whereby all mankind can live according to this standard. He invites all to be clothed with righteousness.

We are not to draw the distinction between one another, but between goodness and badness. As the Jew had to learn that in the religion of Jesus Christ there is no difference between Jew and Gentile, so we of today

ning to us. We never grow too old for stories of adventure or discovery. We are thrilled by the stories of history which show men taking their lives in their hands and pushing out into the unknown; and we feel sure that even about us there lie many things undiscovered—as unknown as America to Europe before Columbus.

In the physical world the discovery of the unknown is denied to most of us, but the words of Jesus tell us of a realm where we may have the new experiences of discoverer and inventor. For of course they apply to the realm of religion and of character building; for here are numberless undiscovered things, new duties, new joys, new and deeper faith.

Now we will look at the character realm and see how this truth of the unknown things apply.

First, in duties. The progress of the world consists in finding and doing our duties. At first men did not feel any duty toward the sick, or weak, or young. The duties of charity and ministry were undiscovered. At first duty to God was to offer sacrifices of lambs or fruits. The whole realm of self giving was undiscovered. So the words of Christ mean that there lie hidden all about us deeper and finer duties which we may find and do if we will. How small a thing we often make our duty, and all about us lies the unknown realm of new and sweet ways in which we can give heart, life and all in consecrated loyalty to God, closely akin to the finding and doing of duties is that of powers. We all have powers we do not use. A man who has always given himself to the ordinary work of life alone, when he gives himself to God finds new powers, and best of the power of his spiritual influence which the world has not yet felt or known. All the time he had the power to exert this influence, only it was unused. So all around us lies this undiscovered life, there are better things for every one of us to find, God will not disappoint you. Seek for him and for his forgiveness and seek to have his character and be like him and ye shall find.

In the evening the pastor spoke on "Deep Calling unto Deep."

Mr. Kowalski will meet the choir Wednesday evening instead of Tuesday, this week.

WE KEEP THE QUALITY UP

## Aids to Intelligent Shopping.

In this column we from day to day present the store news clearly and concisely, touching on new arrivals, standard values and bargains. Always something here of interest if one would keep posted on the store's movements.

**AID 1—Black Wool Baste** or veiling, just the thing for a cool summer dress. Received Monday. Width 36 inch; price 50c. It is excellent value, and beautiful, fine quality.

**AID 2—Shirt Waist** bargains. Overstocked; were 50, 60 and 75c. We have been offering them since Saturday at 25c. One look tells you that they're good to have at such a figure. Don't wait too long.

**AID 3—Toilet Sacques**, most comfortable garment a woman ever put on. Lovely styles in dainty striped dimity reduced from \$2 to \$1 40. Also all white with wide collars; lovely embroidery on collar and edging sleeves. Fine, sheer muslin; were \$2 25, now \$1 75.

**AID 4—Wrappers**, white dimity and muslin; very choice styles. About two dozen garments. Although made to sell at two to four times what we ask for them. We have put the price at 98c.

**AID 5—In our last "ad."** we mentioned black muslin Wrappers with small colored flowers, sheer quality, at \$1.50. To push the sale of them we offer the lot at a figure that will do it—\$1.15

**AID 6—McCall Bazar Patterns.** We took the agency for them the first of the year, but reluctantly, as we were not very favorably inclined toward patterns. We have been pleasantly surprised by the large number of patterns sold. They give excellent satisfaction, are up to date, easy to understand, sure fitting, and only 10c and 15c. Women tell us (but we know it full well) that it is all nonsense paying high prices for patterns when one can get the McCall Patterns at 10 and 15c.

**AID 7—Genuine Shantung Pongee Silk**, printed, designs artistic, colors, red, blue, brown, gray, purple; it is 27 inches wide, and we offer it at the former wholesale price, \$6.50 a pattern, which measure 14 3/4 to 15 1/2 yards—just the thing for a light summer dress, and serviceable. Quality limited.

## WHAT WAS DONE IN HAWAII.

The more this Hawaiian complication is investigated the more it seems to be a case of Japan vs. America.

Japan has been rushing immigrants into Hawaii in immense numbers in recent years under the understanding, as declared by the treaty between Japan and Hawaii in 1871, that these people shall be guaranteed all the rights and privileges allowed to other foreigners—that is, allowed the same rights and privileges as Americans, Englishmen, Germans and others of the white race.

What does this wave of immigration mean?

It means that Japan has a set purpose to overrun the islands with men of her race and then seize them. There are now, it is estimated, 25,000 Japanese in Hawaii or not far from a third of the population of the islands. They form the largest single element of the population except the natives and as the natives are rapidly dying out and the Japanese still more rapidly increasing the Japanese will soon be in the preponderance. It would be very easy for Japan under these conditions to get up some sort of a pretext which would enable her to establish a "protectorate" over the islands, to "mediate" between her sons and the white race, or in some other way get the coveted country into her possession.

Japan's course in respect to Hawaii in the few months immediately preceding the negotiation of the annexation treaty can be explained only on the theory that she had sinister designs on the independence of the little republic. Her conduct since the treaty was framed strengthens that presumption. In foiling Japan's game the administration acted not a day too soon. Hawaii must be either American or Japanese and of the two the first is by far the most inviting prospect.

## OHIO IS SOLID.

Democratic reports of a coming split in the republican party in Ohio have been shown to be groundless and democratic hopes of success in the campaign consequently prove to be vain. Ordinarily Ohio is a close state, but when the Republicans are harmonious and earnest, as they are this year, they almost invariably win. The Democrats will be hampered by the silver issue. They will endorse the entire Chicago platform, and that deliverance is probably as unpopular as it proved to be last year. John R. McLean's money may buy a fusion between the Democrats and the Populists, but no amount of money can quiet the antagonism which the general public everywhere has to silverism and its kindred follies of '96, or remove the distrust that Ohio people had toward McLean. The democrats, while having no hope of carrying the governorship, pretend to believe they can elect a majority of the legislature, and thus secure a United States senator, but the fact that McLean is their candidate for the senate destroys the faint, the very faint, chance that they might otherwise have of winning the legislature. An exceedingly interesting canvass will be waged in President McKinley's state this year, and there is not the slightest reason to doubt that the president's party will be victorious.

## VILAS IS FIRM.

William F. Vilas has stirred up a lot of feeling by his reflections on the Chicago platform. Undoubtedly he hates the platform as bitterly as he did last year, when he did such valuable service for honesty in national finance. Apparently, however, Bryan, Altgeld, Debs and the rest of the Popocratic coalition think the platform is all right, except that it could be improved by adding a few "advanced planks" to it. Thus the democracy remains split, and the extremists continue in the minority. There is a fine prospect in 1900 for a campaign which will crush the last semblance of life out of the riot and revolution "combine."

One of the most favorable features of the business situation is the low

price of all raw products used for manufacturing. It leaves a wide margin for advances that will not burden the consumer or seriously hinder export manufacturers. Dun & Co. reflect other encouraging conditions in their weekly letter. In summing up they say:

"There is no step backward in business, although the season of midsummer quiet is near. Improvement continues, gradual and prudently cautious as before, although in many branches evident where no signs of it appeared a few weeks ago. Business men of the highest standing in all parts of the country having gradually perceived that the tide has begun to rise, are regulating their contracts and investments and their plans for the future with a confidence quite unknown to them a short time ago. Great changes before the adjournment of congress are hardly to be expected, but removal of uncertainty is with reason expected to bring into operation buying forces which have been restricted for months."

Although President McKinley cannot help it, he is doubtless more or less annoyed at the numerous announcements as to his going to this or that place, made for advertising purposes and covering all sorts of schemes from a summer resort boom to a college boat race. He does his best to squelch these fakes by keeping the public posted as to his intentions.

The farce that is called an investigation of Supt. Hart will be continued at Waukesha next Monday. To a disinterested observer the State Board of Control and not Mr. Hart, seem to be under fire. Spite on the part of the prosecuting attorney appears to figure quite prominently in the case.

## START FOR WEST TOMORROW.

Janesville Party Well Satisfied With Their Sleeping Car, the Riverton.

Janesville people who leave for California over the C. & N. W. tomorrow will have a handsome coach. The sleeper "Riverton" was left in the Janesville yards today, and excursionists who visited it were greatly pleased. The Riverton was built for parlor car work, and the large plate glass windows and other features differ materially from the usual sleeping car equipment.

The special train on which the Janesville party will go leaves Madison tomorrow evening at 6:05, and the Janesville leaving time is 7:20. The train will consist of a combination car and the sleepers Rambler and Maine, from Madison; the Fairfax, from Evansville; the Riverton, from Janesville, and the Ticonderoga from Belvidere.

Another section of six cars from Milwaukee and the points north will follow from DeKalb and the entire train will be a special from Council Bluffs to San Francisco, making the stops as advertised.

## WE MAY GET A BIG FACTORY

C. & N. W. Company Recommends Janesville to Firms That May Move.

Janesville has a chance to secure a big silk factory. Agent C. E. Ranous of the Chicago & Northwestern road has received a letter from E. D. Brigham, assistant general freight agent, saying:

"There are several silk manufacturers in Paterson, N. Y. and vicinity who are contemplating the removal of their plants to the west. We have recommended your city as a very desirable point for a factory of this kind and I will be very glad to have your Business Men's Association communicate with our general agent, Mr. A. H. Pride, 425 Broadway, New York City, giving him such information as they may wish regarding the advantages and inducements offered and any other information necessary for such parties to have."

Following the suggestion in the letter Mr. Ranous turned it over to Capt. W. T. Vankirk, president of the Business Men's Association who will take such action as the members desire.

## CHICAGO MARKETS BY WIRE

Robert Lindblom's Letter On the Condition of Crops and Trade.

Chicago, June 28.—[Special to Byrd & Law Commission Co.]—Some of the tailors on the July deal wanted to sell this morning and on trying to do so they struck some stop orders which came into play as July wheat sold down four cents from the highest point of Saturday, they recovered of course and went back again.

There are a lot of traders who are saturated with the idea that there is going to be a July corner and of course every time the market comes up they are tailing on and buying some and the shorts get frightened, but corner in its true sense regard now as an impossibility unless the trade in general should be converted to this idea and commerce to sell a lot of July wheat short, in which event somebody might pick it up. But the way other markets have advanced themselves, receipts in Chicago should be large as to get attempt any at a corner, as the entire southwest and the northwest would become tributary to this market as we are now the highest instead of the lowest.

Reports from cornfields are excellent, prospects are normal and all we need is the usual hot weather in July. Provisions are strong however, you can make no mistake if you bull them no matter what the corn crop.

Thoroughgood & Company have received a letter from H. F. Allan, a London broker, which shows the beneficial effect of the election of President McKinley. Mayor Thoroughgood allows The Gazette to copy the letter, which is as follows:

London, June 15.—To Messrs. Thoroughgood & Co., Janesville, Wisconsin. Dear Sirs—Since the inauguration of Mr. McKinley as president of your country, and owing to the favorable impression his address created in England, I have received numerous inquiries from clients with regard to bonds of American industrial companies.

Should you contemplate an issue, and will send me full particulars, I shall take great pleasure in bringing the matter to the notice of my clients. Thanking you in anticipation I remain Faithfully yours, H. F. ALLAN.

## IS IT A TRIFLE?

That Common Troubles, Acid Dyspepsia or Sour Stomach.

Now Recognized as a Cause of Serious Disease.

Acid dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food. The stomach being too weak to promptly digest it, the food remains until fermentation begins, filling the stomach with gas, and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic and being an every day occurrence is given but little attention. Because dyspepsia is not immediately fatal many people do nothing for the trouble.

Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles. It is known as Stuart's Dyspepsia Tablets and is now becoming rapidly used and prescribed as a radical cure for every form of dyspepsia.

Stuart's Dyspepsia Tablets have been placed before the public and are sold by druggists everywhere at 50 cents per package. It is prepared by the Stuart Chemical Co., Marshall, Mich., and while it promptly and effectively restores a vigorous digestion, at the same time is perfectly harmless and will not injure the most delicate stomach, but on the contrary by giving perfect digestion strengthens the stomach, improves the appetite and makes life worth living.

## TWO OLD SETTLERS CALLED BY DEATH

WM. GARDINER AND C. W. WHITTIER PASS AWAY.

Both Were Pioneer Residents—The Former Had Served the People in Political Capacity, and the Latter Was a Veteran of the Civil War—Other Mortuary Mention.

William Gardiner, ex-chairman of the county board of supervisors, and ex-member of the assembly, died at his home on Ruger avenue at 3 o'clock this afternoon, after an illness of some weeks' duration, with pneumonia.

Mr. Gardiner was one of the well-known pioneer residents of the county. He was a native of Gloucestershire, England, and was born on September 3, 1826. His mother died when he was but nine years of age, and four years later his father also passed away. He was the youngest of a family of six children.

The death of his father compelled him leave school and practically made him dependent upon himself. Soon afterward he located in London where he remained until he was nineteen years of age. He then decided to come to America and made the journey alone, arriving in New Orleans some weeks later. From that city he came to Wisconsin taking up government land on "Rock Prairie." Since then he has been a resident of Rock county.

His energy and thrift enabled him to conquer the hardships of pioneer settlers and in 1886 when he retired and removed to this city he was the owner of 280 acres of fine land in the town of Bradford.

Honored by Fellow Men.

Mr. Gardiner was one of the representative men of the county. Although he began life with but a limited education, and scanty means, he improved his opportunities and accumulated a comfortable competence.

For two years he was the chairman of the county board of supervisors, and for twelve years the town of Bradford's representative in that body. In 1878 he was nominated for member of the legislature, and was elected by nearly one thousand majority. He was always a stalwart republican, and one of the founders of the party in this county. He was a member of the Methodist church.

Mr. Gardiner was married in 1860 to Miss Carrie Dostater, daughter of Mr. and Mrs. Jacob Dostater, of Shoshone. A family of nine children were born to them, they being S. Kate, William D., Charles J., C. Lillian, Edwin, Emma C., Benjamin H., Grace E., and Mary E. Gardiner.

The arrangements for the funeral are not complete, but will be announced later.

Charles W. Whittier.

Charles Wesley Whittier, one of the pioneer settlers of the city of Janesville, and a veteran of the civil war, died at his home, No. 2 Fourth avenue, at 10 o'clock last evening, aged seventy-seven years, after a painful struggle with pneumonia.

Mr. Whittier was born in Monroe county, New York, in 1820. In 1844 he was married to Miss Sarah Ann Sanford, of the same place, and in 1847 they came to Janesville, which city has been their home ever since. He was mustered into the Federal army on September 1, 1862, being assigned to Company E, Twenty-Second Wisconsin Regiment, Volunteer Infantry. He was taken prisoner during the war, and was confined in the historic Libby prison for a few days. Later he marched with General Sherman to the sea. After serving three years he was honorably discharged, and returned to Janesville, since which time he has resided in the second ward.

Mr. Whittier was a man of many excellent traits of character, and many friends will be pained to learn of his demise.

Beside a widow, he leaves one son and two daughters, Mrs. O. F. Bowles, of Dell Rapids, South Dakota, Alice J. Haight, of Chicago, and Arthur J. Whittier, of this city.

The funeral will be held from the home No. 2 Fourth avenue, at 2 o'clock Wednesday afternoon.

John Whitten.

A telegram has arrived in the city announcing the death of John Whitten who died yesterday morning at 7 o'clock at his home in Kewanee, Ill. He would have been eighty-two years old this fall and the cause of his death was pneumonia. Three sons and three daughters were left to mourn his death among whom are I. A. Whitten, Mrs. C. E. Bowles and Mrs. Clement Noyes of this city.

Mr. and Mrs. Clement Noyes, Mr. and Mrs. J. A. Whitten, Mrs. C. E. Bowles and John Whitten, of this city, will attend the funeral, which will take place in Kewanee tomorrow morning at 10 o'clock.

Funeral of Mrs. Dearborn.

All that was mortal of the late Mrs. Lyman Dearborn was laid to rest this afternoon in Oak Hill cemetery. Rev. Victor E. Southworth of All Souls conducted services this afternoon from the South Main street home of Mrs. A. P. Prichard. The floral offerings were beautiful and told of the high esteem in which the deceased was held. The pall bearers were: A. P. Lovejoy, Fenner Kimball, William Smith, W. H. Greenman, I. C. Brownell and E. G. Fildel.

The Hanson Furniture factory was shut down Saturday evening for inventory, and a number of hands are out of work.

A COPY of "The Echo" published by the Milwaukee Normal school class of 1897 tells of the good work accomplished by the Janesville students. There were five Janesville young ladies among the graduates—Miss Mary A. Poey, Miss Gertrude Zeininger, Miss Anna McNeil, Miss E. May Clark and Miss Nellie Blakely. The class included sixty-nine, and out of twenty-one who gave the presentations on commencement day there were three from this city—Miss Clark, Miss Zeininger and Miss Poey. Miss Clark was editor in chief of The Echo and is given much credit for her work.

## EIGHT LOCAL RIDERS MAKE CENTURY RUNS

JANESVILLE CYCLERS COVER MUCH TERRITORY.

O. Sutherland, J. G. DeLong, Carl Miller, Walter Merritt, Eugene Noyes, Roy Sanborn, Clayton Holmes and H. C. Klein Take One Hundred Mile Trips—Talk for Wheelmen.

Eight local cyclers made century runs yesterday, and all local cycling records have been broken.

They were:

Orion Sutherland, J. G. DeLong and Carl Miller.

Walter Merritt and Eugene Noyes.

Clayton Holmes and Roy Sanborn.

The roads leading from this city were not in the pink of condition and for this reason the riders deserve all the more credit. At 4 o'clock yesterday morning Carl Miller, J. G. DeLong and Orion Sutherland left from the corner of Milwaukee and Buff streets. Their wheeling point was Waukesha, a distance of 55 miles. All three riders left together, but when the distance was half covered, Miller began to get tired, so the pace was made slower to help him. While descending a small hill, DeLong's front wheel collided with Sutherland's wheel and a spoke was thrown from its fastening. To replace this required considerable time. Later, while spinning along at a good rate of speed, the tire on Sutherland's wheel suddenly gave out and it was then discovered that it was punctured. Repairs were made and they made the trip home without accident covering a distance of 111 miles in less than schedule time.

Another Pair Successful.

Walter Merritt and Eugene Noyes wheeled out of the city yesterday at 7 o'clock in the morning for Rockford. The trip to the Forest City required about three hours time, and they remained for a three hours' rest, as the roads were rough and uneven as a result of the recent rains. The return trip was made without accident. From here they wheeled to Milton Junction and return, but still lacked several miles of the century mark. They then wheeled into the country and finally covered the required one hundred miles.

Holmes Had Hard Luck.

Clayton Holmes and Roy Sanborn made a one hundred mile run yesterday, but in so doing they had the pleasure of walking seven miles on roads that were not the best. They left the city at 9 o'clock bound for Rockton, Ill. The distance is nineteen miles and it was covered in less than two hours. They returned to this city without accident, and after a short rest here, left for Whitewater. When about a mile from Milton on the chain on the wheel ridden by Holmes gave way. This left the rider helpless, but rather than turn back to Milton he walked to this city where he hired another wheel and finished his hundred miles. As the rules of the Century Road Club are that the trip may be made aloft or a wheel these seven miles were added to his credit.

Henry C. Klein's Run.

City Electrician Henry C. Klein, of the Fire Department Cycling Club, added another century to the record of the members of that organization yesterday. His trip took him to W. T. town and return. He covered enough distance north of the city to make his cyclometer register 110 miles when he finished the trip. The roads were in bad condition he says, although he made the trip without an accident.

Some Other Notes.

F. J. HINKLEY and Belknap Mulford, both prominent riders of the Rockford Cycling club, made the trip here yesterday and spent the day with local friends.

STANLEY TALLMAN wheeled to Delavan yesterday covering the 20 miles in three hours. He returned home on the evening train.

LOBBIN MORSE and Edwin Clark rode to Beloit yesterday on a tandem, but their machine broke down and they returned on the train.

SEVERAL of the local cyclers expect to wheel to Delavan next Saturday and celebrate Independence Day.

MANY cyclers made the trip to the river resorts yesterday to spend the day.

CAPELLE Bros. made the trip to Delavan Lake and return.

GEORGE KING and B. L. Watt rode to Delavan yesterday.

REFRESHMENTS will be served at the close of the third degree work in Masonic hall tonight.

## HUNT CLAM SHELLS IN SHALLOW WATER

MANY JANESVILLE MEN MAKE BIG WAGES.

Three Days' Work Netted One Searcher \$27, and the Sand Bars are Alive With Waders—Pearl Button Firm Pays One Cent a Pound For All Secured.

The clamshell harvest is now under way, and Janesville men are making good wages. The shells are bought by a local firm, who will use them in the manufacture of pearl buttons, and one cent a pound is the price paid.

The industry is a new one for Janesville. Some days ago a member of the New York firm came to Janesville and rented the building formerly used by the Bower City Light & Power company for a storehouse. R. F. Finley was appointed receiving agent, and the announcement was made that one dollar per hundred pounds would be paid for the shells.

Then the "hunters" took to exploring the bottom of the river, and they have made good wages by gathering the shells. Three days' work netted one man \$27, and he has been working industriously ever since.

Many Clams in River

The bed of Rock river, at many points, is almost entirely composed of clam shells, and now that the shells have a market value, these beds are being hunted for. In the shallow water at Monterey, thousands of clams are found, and scores of men are now searching for them. A dozen boats are used by the searchers and the water was stirred up by a big crowd all day yesterday. The usual mode of finding the clams is to wade in the water, locating the clams with the feet. They are then brought to the surface, rakes being used where the water is too deep to reach the shells with the hand. The clams are then tossed into a boat, or put in a bag carried by the searchers. When a load is secured, the shells are taken ashore and assorted. Purple shells are thrown away, but the white ones are kept. The hunters generally open the rough shells, as in these the famous "fresh water pearls" are found. As the shells must be freed from meat, the clam must be removed. This operation would bother a person not familiar with the clam business but the old hunter has a way of his own.

Hot Water is Used.

While the hunter is wading about in mid-stream, the water is boiling merrily in a big kettle on the shore. When the hunter comes in with his load he tosses the white shells into the kettle as they are assorted. The hot water causes the shell to open and hardens the meat of the clam. It can then be removed with ease and the experienced hunter becomes very expert at this part of the work.

The shells are then washed, and taken to the warehouse, where the hunter gets his cash for them.

While Monterey shallows are the favored hunting grounds just at present, many clams are found at other places. Several searchers were at work this morning in the shallow water near the upper dam, the field covered reaching from the bar below the Thoroughgood factory to the dam.

Thousands upon thousands of clams can be found in the shallow places in the river, and the industry bids fair to be a very important one for some weeks to come. If all the clams can be "harvested", Rock county can furnish pearl button material for the whole state.

## WARDROBE AND HOUSEHOLD

## Louis XV and XVI Louis Drawing Rooms. An Effective Costume.

Mothers who go out into society to take their daughters should wear a demitain. Young women and young girls who dance should adopt the round skirt. In both cases, however, the skirt should be close at the top around the front and hips.

Drawing rooms, in order to be fashionable, must now be furnished in the Louis Quinze or Louis Seize style. The Japanese style, the crowded, so called "high art" style, and the heavy style have all gone out. Now the walls must be wainscoted with lacquered wood in pale pink, pale green or cream; the carpet must be of moquette, with a very light ground, and the furniture must be enameled with cushions of variously tinted satins, yellow, white, green, rose, etc. A few objects of art of genuine value may be in evidence, statuettes, fine vases and such articles of worth, but no engravings of bric-a-brac, although photographs in pretty frames are permissible.

Many women of moderate means would be happy to wear costumes of white woolen

NOVEL COSTUME.

goods if white were not so easily soiled that most persons employ it only for dress wear, unless in wash materials. However, a Parisian paper gives a recipe for cleaning white wool fabrics by a dry process. Terra alba is lavishly sprinkled over the goods, which are carefully folded and left undisturbed for 48 hours. They are then shaken out and conscientiously beaten until all the dust is removed. If the first operation is not completely effective, it must be repeated two or three times.

The sketch shows a very effective new model of a gown. It has a skirt of black liberty gauze, composed of six flounces, edged with Valenciennes lace, five of the flounces being cut in deep points. The bodice is of pink taffeta, striped with black, and has a bolero of white guipure, edged with black velvet. The close sleeves of taffeta have epaulettes of black liberty gauze, embroidered with Valenciennes lace.

## FASHION'S FANCIES.

## Elbow Sleeves—Pale Gray the Favorite Parisian Color.

The latest novelty in children's shoes is tan leather adorned with fancifully cut patent leather trimmings.

It is said that stains on white flannel may be entirely removed by washing it in milk. The flannel must be rubbed on the side where the spots are most evident and the milk must be renewed until the flannel is clean.

This year elbow sleeves are worn, even for out of door gowns, gloves being chosen of a length to meet them.

In Paris gray is the fad of the moment—soft, pale gray, a decided contrast to the vivid colors which have been, and still are, the mode. The costumes of gray silk, wool or cloth are very attractive trimmed

VISITING COSTUME.

with yellowish guipure or ivory lace, but should not be worn by women who have no color.

The trimmings of printed taffeta are as varied as the designs. They are ornamented with ruffles of the same goods or with platings and flounces of gauze or mousseline de soie; also with very narrow velvet ribbon, applied in triple bands or bordering the ruffles. These narrow velvet ribbons are also applied in the form of a short, round tablier at the top of the skirt, and are used to head ruffles as well as to edge them. Velvet bands likewise outline the bolero on the corsage and encircle the shirred sleeve.

The picture given today shows a visiting costume having a plain skirt of black satin with godets at the back. The bodice of geranium taffeta has a valois collar lined with lace and revers of coquilles of lace. There is a short basque the edges of which are finished with narrow lace. The plastron is covered with little ruffles of lace. The tight sleeves have shoulder knots of dark geranium velvet fastened by paste buckles, and the belt is of velvet to match, fastened by a large buckle. The hat of pink silk gauze is trimmed with pink primroses and black velvet.

ELASTIC STARCH has been before the people of the United States for twenty-three years and is without doubt the greatest starch invention of the Nineteenth Century. Last year its sales reached the unprecedented number of twenty million packages. It is prepared upon scientific principles by men who have had years of practical experience in fancy laundrying. It makes ironing easy, restores old summer dresses to their natural whiteness, and imparts to linen a beautiful and lasting finish. It is the only starch manufactured that is perfectly harmless, containing neither arsenic, alum, or any other substance injurious to linen, and can be used even as a baby powder.

## Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains this "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

## Picnickers,

Attention...

Those wishing to go up the river for a day's outing can make arrangements with C. A. Sanborn & Co. for the use of a Steam Launch with a capacity for carrying twenty

or twenty-five people. The launch can be run up river six or seven miles to any point the party wishes to stop at. A very neat little park, called "IDLEWILD," five miles up, that is especially nice for picnic parties, can also be arranged for.

Those wishing to camp out will find an ideal spot at "IDLEWILD PARK." Rates reasonable.

## Everyday Summer Gowns.

Gowns suitable for all purposes will be of cheviot, serge or tweed in plain or mixed colors. The eton jacket, worn with a cotton or silk shirt waist, or merely a false front, is the favorite way of making these gowns. The reefer that buttons or may be reversed is another jacket more suitable for a stout figure, leaving the short bolero for the slender. Mixed goods do not require trimming, and the plain fabrics are lightened with rows, scrolls or hand braiding of hercules or soutache braid. The trimming is arranged according to the material and figure—cross and lengthwise rows on the skirt, in V panels, on the wrists or covering the sleeve to the puff, and on the edge of the jacket only, or completely covering the latter garment.

Small braid covered or large bone buttons are used. Finely twilled serge is preferred. Indistinct plaids are liked in tweeds. Cheviots wear well and are selected for rough traveling suits. I would advise having material intended for hard wear sponged. If one can afford silk for lining the skirt, it will prove light and keep its shape better than anything else. Plaid taffeta waists are very pretty with any of the woolen materials just written of. Select gray, blue, brown or green effects in a figured goods.—Ladies' Home Journal.

## The First in the Colony.

Miss Annie J. Duncan has been appointed factory inspector in New South Wales. She will be the first woman factory inspector in that colony. She is well known in London as former sanitary inspector under the Kensington vestry. Miss Duncan is an Australian, the daughter of Dr. Handasyde Duncan, who served for 30 years as immigration and health officer under the government of South Australia. The factories and shop acts which Miss Duncan will be called upon to administer came into existence at the beginning of this year, and they comprise the first legislative enactments of the kind in New South Wales. In two provisions at least they show an advance upon our own factory and shop acts, first, by the compulsory providing of seats for shop assistants in the proportion of at least one seat to every three persons, and, second, by bringing all laundries under the conditions imposed upon factories. Miss Duncan is to be congratulated upon her appointment. She was the successful candidate out of 150 applications for the post.

## Woman's Work in India.

Dr. Harriet E. Parker of Putney, Vt., is in charge of the Women's hospital in Madras, south India. Last year there were 18,000 cases treated in the hospital. So much more additional room is needed a large and really well appointed building is now in process of erection just across the street from the present structure. The women's board of missions in Boston has done a great deal for the hospital, and the amount of relief given the native Indian women is almost incalculable. A "Bible woman" reads regularly to the patients, and religious services are conducted every day. Leprous patients are treated in large numbers.

Various devices for holding a woman's watch securely in some convenient place have been tried with more or less success. The very latest fad of all is the tiny leather bag tag strap with a little gold buckle fastened around the belt, and from this the watch is suspended.

In Denmark and in Norway the posts of shorthand writers at the respective parliaments of those countries are chiefly occupied by women, it having been found that women as a rule succeed far better than men in this form of reporting.

It is the suggestion of a housekeeper that to take down the brass curtain poles at the spring housecleaning, as well as the curtains, and wrap them in tissue paper until the autumn is well worth the trouble.

Point lace work, which was so fashionable last season, and still is so, finds a strong rival in honiton work. The honiton pattern is worked on the linen as a border, and the material is afterward cut away.

In France women are held in such subjection to men that before one is permitted to join the Bicycle Touring club the consent of her father or husband must be obtained.

There is a time for everything; and the time to attend to a cold is when it starts. Don't wait till you have consumption, but prevent it by using One Minute Cough Cure, the great remedy for coughs, colds, croup, bronchitis and all throat and lung troubles. C. D. Stevens.

## NEW BODICES.

Embroidery and Lace Bodices—A Pink Mousseline de Soie Dress.

The varied shades of mauve, violet in all its tones and the entire gamut of green are enjoying very great popularity in gowns, silk petticoats, jackets, wraps and millinery. The two colors are much seen in combination as well as separately. The green is in strong evidence this spring, being particularly liked.

Corsages are constructed after several diverse models that they seem to belong to different epochs of fashion. Some show the side, and these are in the majority; others cross on the breast and have rays of lace, embroidery or some other trimming. Then there are bodices having full front and a wide belt. Foulard costumes and those made of other soft fabrics permit still another style of arrangement, the fronts being cut low, like an evening dress, and crossing so as to fasten under a knot on the shoulder. The under corsage,

SUMMER COSTUME.

which serves to fill up the décolletage, is of a different color from the rest of the gown, except the sleeves, which match it.

The illustration given today shows a costume of pink mousseline de soie over pink silk. The accordion plaited skirt is trimmed with two bands of cream guipure insertion. The bodice of pink mousseline is draped over a close silk lining and opens in front to show a plastron covered with little plaits of pink gauze edged with cream guipure. The guipure of cream guipure over pink silk is framed by a bias band of green velvet fastened by bows at the corners. The belt is of green velvet and is closed by a large gold buckle. The shirred sleeves of pink gauze have draped epaulets of the same material, and the draped collar is also of pink gauze.

## WHY THEY LINGER.

The Perennial Blouse Waist Still in Vogue. Princess Gowns.

Many persons are weary of the bolero, the fashion having lasted long enough, they consider. Nobody is obliged to wear it, however, as there are a score of different styles for the bodice in which the bolero has no part. But it has by no means disappeared, nor is it likely to do so for some time to come. Very short, of embroidery or lace, it is a most effective element in elegant costumes. There is an old adage which says, "Hard words break no bones." Neither do hard words suffice to stem the current of fashion when it once sets strongly in any direction. How much has been said against the blouse bodice; yet it still holds on to life with a firm grasp. Many times have denunciations been heard of the corsage differing from the skirt; yet here it is again this season, as full of vitality as ever.

For slender but well developed figures the princess gown is peculiarly suitable. There are also cuirass bodices, embroidered

NEW HAT.

or covered with fine passermenterie. There are so many varieties of style at present that there is no need of having anything commonplace or unbecoming. Fashion is kind to both the stout and the slender, for a wonder, and benignly offers so wide a range of choice that everybody may be suited. In wraps there is almost as great a diversity not only in form, but in adornment. Ruches of gauze, linings under transparent laces or open work materials and embroideries of jet variously disposed allow of much novelty. These changes give the cape a new lease of life, and it will be seen not only during the summer, but in the autumn, in cloth, satin, silk or lace.

The jacket is, of course, a permanency. It is altered, but never discredited. At present it is short, close and usually left open in front to show a vest of gauze or lace. It is the preferred wrap always for young girls.

Today's illustration shows a hat having a beretta crown of mauve taffeta. Around this is a sort of brim of bunches of ivy leaves and cherry poppies. The striking novelty of the hat lies in the loops which form the trimming. These loops are composed of ruffles of mauve gauze mounted on wire. Some of the loops stand erect, others rest upon the hair behind.

## The Perfume of Violets

The purity of the lily, the glow of the rose, and the flush of the peony combine in Pozzoni's wondrous Powder.

Mr. Isaac Horner, proprietor of the Burton House, Burton, W. Va., and one of the most widely known men in the state was cured of rheumatism after three years of suffering. He says: "I have not sufficient command of language to convey any idea of what I suffered, my physicians told me that nothing could be done and my friends were fully convinced that nothing but death would relieve me of my suffering. In June is 4, Mr. Evans, then salesman for the Wheeling Drug Co., recommended Chamberlain's Pain Balm. At this time my foot and limb were swollen to more than double their normal size and it seemed to me my leg would burst, but soon after I began using the Pain Balm, the swelling began to decrease, the pain to leave and now I consider that I am entirely cured. For sale at C. D. Stevens' pharmacy, corner Main and Milwaukee streets.

Hundreds of thousands have been induced to try Chamberlain's Cough Remedy by reading what it has done for others, and having tested its merits for themselves are today its warmest friends. For sale at C. D. Stevens' pharmacy, corner Main and Milwaukee streets.

"For three years we have never been without Colic, Cholera and Diarrhoea Remedy in the house," says A. H. Patter, with E. C. Atkins & Co., Indianapolis, Ind., "and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely. It is all right, and anyone who tries it will find it so." For sale at C. D. The Grocerymen.

### He'd Had a Hard Pull.

"Why do you use such peculiar terms?" asked a lawyer's wife of her husband, who had returned home, worn out by his day's labor. "I don't see how you could have been working all day like a horse."  
"Well, my dear," he replied, "I've been drawing a conveyance all day. Isn't that working like a horse?"—Scottish Nights.

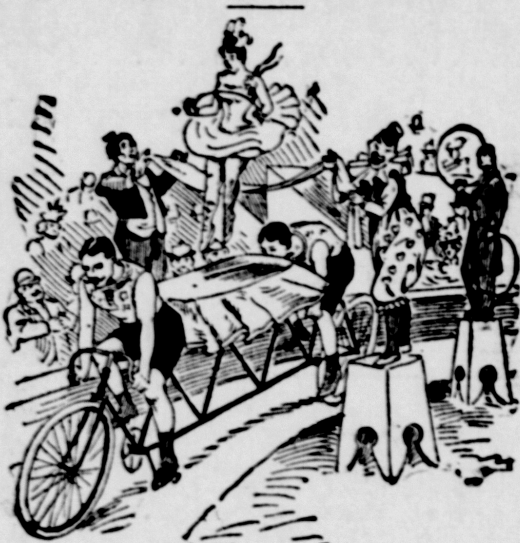

### Justice Foiled.

Judge—I fix your punishment at imprisonment for life.  
Prisoner—He! he! he!  
"What are you laughing about?"  
"I was thinking how you can't imprison me for the time I've lived already. That's one on you, judge."—N. Y. World.

### You Can't Lose Them.

To keep the earth balanced up even and square  
And give every season a show  
The ice trust steps in and with vigilant care  
Takes hold where the coal trust let go.  
—Chicago Record

### CIRCUS OF THE FUTURE.

—Fliegende Blaetter.

### Couldn't, Perhaps.

At the banquet, last night, I was the first to respond to "The Ladies" toast; But when I got home I said not a word in response to the lady's toast.  
—Up-to-Date.

### Not Fin de Siecle.

Counselor Quibble—Law, my boy? Why, this whole universe is an example of the reign of law.  
Young Giddy—Maybe; but there are no fool legislatures assembled every now and then in the realm of nature.—N. Y. Truth.

### A Good Risk.

Insurance Superintendent—Think this Mr. Leon is a good risk, eh?  
Agent—Couldn't be better.  
"Perhaps he has some dangerous occupation."  
"No, indeed. He'll never get hurt. He's a policeman."—N. Y. Weekly.

### No Exception.

Wife—It does seem hard when a woman marries she has to take her husband's name.  
Husband—Well, she takes everything else he's got, why leave that out?—Judy.

### New England Will Be There.

Detroit, Mich., June 28.—Secretary Dowling of the National League of Republican clubs has returned from his eastern trip and reports excellent progress in securing speakers and assurances of large delegations to the July convention. The New England states particularly promise to be well represented.

### Contract for a Big Loan.

Madrid, June 28.—The government has signed a contract for a 6 per cent loan of \$8,000,000 to meet the expenses of the Philippine war. It will be guaranteed by the Philippine customs.  
Mr Sagasta's manifesto defining the policy of the Liberal party with regard to Cuba has been coolly received.

### Turks Are Again Aggressive.

Athens, June 28.—The Turkish army in Epirus, having occupied several positions overlooking Agrapha, thus threatening the Greek retreat in the event of a resumption of hostilities, the Greek government has decided to occupy Karpenisi with a strong force.

Just try a ten cent box of Cascara's, the best liver and bowel regulator ever made.

### Oculatory Demonstration.

She—And you say that a smart thief could steal something from right under my nose. I don't believe it.  
He—Well, there.  
And he had purloined a kiss.—Detroit Free Press.

### Hoping for the Best.

She—You know, dear, we won't get any of father's money while he lives.  
He—I know; but he's going to reside with us, and you're going to do the cooking. Let us hope for the best.—Tit-Bits.

### Evidence of Failure.

John Doe—Did he tell you he failed?  
Richard Roe—No.  
"Then why are you so certain about it?"  
"I heard him talking about luck."—Brooklyn Life.

### Hard Luck.

"Just my luck!" cried the drummer. There were 14 Boston Girls in the car. "Caught in a blizzard again!" he continued, donning his ear tabs.—Philadelphia Press.

### Had Him There.

"I believe you women spend half your lives before the glass."  
"And you men half of yours behind it."—Pick-Me-Up.

### His Anxiety.

Distinguished Artist—Be careful of the picture; it's not dry.  
Art Gallery Porter—It's all right, sir; I've got my old coat on.—Pick-Me-Up.
